RANGER POINT UPGRADE

M-LOK MODULAR STOCKS

The RPP ModStock gives the lever gun a stronger, more adjustable rear end without making it bulky or overcomplicated. The aluminum wrist-based design lets you adjust the angle of the butt pad to better fit the pocket of your shoulder, while the cheek riser adjusts for your optic setup. M-LOK slots provide room for accessories, and an optional 1/2" length-of-pull spacer is available for shooters who need a little more reach.

TECHNICAL SPECIFICATIONS

MATERIAL	6061-T6 aluminum & 7075 for picatinny rail
FINISH	Type III Hardcoat Anodize or Cerakote

RANGER POINT PRECISION

KEY FEATURES

MACHINED BILLET
6061-T6 aluminum machined from solid billet stock for unmatched strength and precision.

LIGHTER WEIGHT THAN WOOD
Aluminum construction weighs less than the factory stock while maintaining rifle balance.

M-LOK SLOTS
Three integrated M-LOK slots accept a wide range of M-LOK accessories.

ROTATING QD SLING SPOTS
Six integrated flush cup accepts a push-button QD sling swivel.

MODULAR ACCESSORY PANEL
Removable M-LOK accessory panel expands mounting options for a customized setup.

DEAD BLOW RUBBER BUTTPAD
Aerospace designed DEAD BLOW recoil pad (best recoil/crush rate on the market).

ADJUSTABLE CHEEK RISER
Four pivot points adjust comb height for open sights or scoped setups.

MADE IN THE USA
Designed and precision machined in the United States. Zero compromise on quality.

ADJUSTABLE SHOULDER ANGLE
Six-position butt plate lets you fine-tune fit and positioning at the shoulder.
